

Artificial Nitrates Used as Experiment

Whether artificial nitrates, made in Norway by immense hydro-electric plants which condense nitrogen from the air will be success here and will ultimately supply a large portion of the Hawaiian market, replacing natural nitrates from the Chilean field, will not be determined for another year, according to Clinton G. Owen, manager of the Hawaiian Fertilizer Co., in the Honolulu Advertiser.

The second cargo of artificial nitrates arrived here this week by the Norwegian ship Mafalda, the owners evidently sending the shipment on speculation as no contract for it had been entered into by any of the local concerns that might be interested. The first shipment of these nitrates to Honolulu reached here last year and was sold to the Hawaiian Fertilizer company. It was used to fertilize certain tracts on plantations but as another year will be required for the maturing of the cane planted on these lands, the effect of the new fertilizer is not yet apparent.

Election Inspectors For Maui Announced

The following inspectors of election for the counties of Maui and Kauai have been appointed by the Governor:

- Third District**
- 1st precinct—Lawrence Gay (chairman) and James T. Monroe, Lanai.
- 2nd precinct—Albert J. Cockett, Honokohua, Maui.

Why

automobile
manufacturers say
"clean your crankcase
regularly!"

Engine operation causes steady accumulation of road dust, carbon, fine metal particles, and other impurities in your crankcase oil. This contaminated oil circulates through your engine, impairs its performance and ultimately leads to rapid depreciation and repairs.

Your Instruction Book says, "flush out the crankcase regularly and refill with fresh oil." But these important instructions are often disregarded; cleaning the crankcase is a job generally disliked.

To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers, co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil, —the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the proper grade of Zerolene.

ATTENTION

is what your car or truck requires as soon as it shows the first sign of poor running or unsatisfactory service and then is the time to save money by taking it in time. We are beyond the experimenting stage and know what to do and how to do everything in AUTO REPAIRING.
